

Bi-Folding Doors

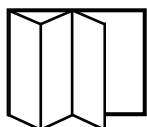

Bring the outdoors indoors by using folding doors; the sashes just slide aside to create a large opening.

Suitable for both domestic and residential purposes, with a wide choice of openings and a large choice of colours. These doors are commonly used in private houses, apartments, and conservatories and open completely, or just as a single door. They transform the relationship between the interior and exterior of your home.

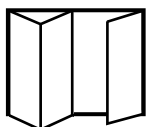

- Available in White, Rosewood and Oak finishes, with white internal options
- The Shootbolt Locking Mechanism ensures maximum security.
- Accommodates a 28mm glazed unit.
- Fabricated with a 70mm profile.
- Option range from 3 sashes to 7 sashes.
- Internally beaded black gasket for extra security.
- Accommodates many styles and opening options.
- Slides left or right in opening.
- Wheels incorporating high precision bearings.
- Robust running rail, provides for smooth and silent operation.
- Virtually maintenance free.
